THE VENTURE

ANSWERS ARE CHEAP. TRYING AGAIN IS NOT.

AI makes answers cheap, but the chance for children to investigate, build, get it wrong and try again is still costly. NBC builds **programmable physical learning environments where children build, experiment and develop capabilities with shared AI**, starting from five years of Algo Peers practice in Cape Coast, Ghana.

FIRST GOAL

An MOU with the Ghana Education Service in Cape Coast to co-build and pilot with educators.

HOW IT IS FUNDED

A public-private partnership: public partners, co-funders, investors and fellowships.

STAGE

Pre-seed. Algo Peers has reached 1,000+ children; NBC pilots start this term.

THE BRIEF

FIND THE PARTNERS WHO WILL SAY YES.

OFFICIALS SAY YES TO CO-BUILDING.

Education officials respond to a pilot built with Ghana's own educators.

EDUCATORS WANT A SEAT AT THE TABLE.

Teachers join when invited to design the first version.

COMPANIES FUND PUBLIC PILOTS.

CSR teams respond to a partnership with the education service, not a donation.

CAPITAL FOLLOWS A CREDIBLE PILOT.

Investors, accelerators and the diaspora lean in once public partners are on board.

The experiment: five ads to five partner personas on LinkedIn and Meta, each with its own landing page. Two one-week rounds, \$300 or less. We count briefs requested and meetings booked, not clicks.

DESIGNED • LAUNCHES WED 14 OCT

01

THE WAY IN

Our first-stage go-to-market: win an MOU, prove a pilot, and finance it through a public-private partnership.

THREE THINGS TO WIN. IN THIS ORDER.

01

THE MOU

A pilot framework with GES Cape Coast, so educators co-build the first version with us.

02

THE PILOT

Run with selected teachers and programmes, with care for every child's data.

03

THE MONEY

Public in-kind support, private co-funding, investors and fellowships, each carrying the part that suits them.

GHANA IS WHERE WE START, NOT WHERE WE STOP.

GLOBAL BY DESIGN

One protocol and one set of Learning Worlds, built to work in rooms with very little and rooms with plenty.

PROVED SOMEWHERE REAL

Cape Coast first: five years of Algo Peers practice, educators who co-build, and a pilot framework with GES.

GROWN BY EVIDENCE

A contrasting second site comes next. New countries follow only when the evidence earns it.

Brand rule: the brand speaks globally ("learning infrastructure for the next billion children"); Ghana appears as our origin and our proof ("starting in Cape Coast, Ghana"); go-to-market can be local.

EVERYONE HAS A ROLE.

THE EXPERIMENT

One campaign, five partner audiences, five messages. Each ad tests one person and one reason.

ONE CAMPAIGN. FIVE PARTNERS.

- 1 Who:** each ad set tests one partner persona.
- 2 Why:** each message names the reason that persona says yes.
- 3 Held constant:** square image, brand layout, a matching landing page.
- 4 Counts:** briefs requested and meetings booked.

WHAT EACH AD TESTS.

AD	PERSONA (WHO)	MESSAGE (WHY)	LANDING PAGE	PLACEMENT	BUDGET
B1	Public partner	Co-built: "with Ghana's educators"	Government	LinkedIn feed	\$40 · 7 days
B2	Educator	Co-creation: "build it with us"	Educators	Meta feed	\$20 · 7 days
B3	Co-funder	Partnership: "a public pilot"	Partners	LinkedIn feed	\$40 · 7 days
B4	Investor	Origin: "infrastructure from Ghana"	Investors	LinkedIn feed	\$40 · 7 days
B5	Diaspora sponsor	Belonging: "a room at home"	Sponsors	LinkedIn feed	\$40 · 7 days

Our pass lines (set in advance; ours, not industry benchmarks): click rate of 0.5% or more on LinkedIn and 1% or more on Meta; 3% or more of page visitors request a brief or memo; \$40 or less per qualified request. LinkedIn's daily minimum sets the \$40 budgets.

THE ADS

Five ads, one for each partner. Each one leads to a page made for that partner.

FROM PERSONA TO AUDIENCE.

AD SET 5 · DIASPORA SPONSORS

Platform	LinkedIn Campaign Manager · feed
Location	United States, United Kingdom, Canada
Audience	Members of Ghanaian alumni and professional groups
Seniority	Manager and above
Ads	B5, \$40, 7 days
Optimise for	Lead form: register interest

→ **Persona to audience:** Ghanaian abroad who wants to give back at home

BUDGET, TRACKING AND CARE

Round 1: \$180 (four LinkedIn ads at \$40, one Meta ad at \$20), Wed 14 – Tue 20 Oct.
Round 2: up to \$120 for the leaders, Wed 21 – Tue 27 Oct. **Total: \$300 or less.**

Tracking: UTM tags per ad (campaign nbc-partners-v1, content b1–b5); requests logged as leads in our CRM with the ad that brought them; qualified = matches the persona on a follow-up call.

Care: adults only; no page asks about a child; the educator ad is shared with GES first; no learning results claimed.

THE RESULTS

The scoreboard is ready. The numbers arrive when the ads run.

SCOREBOARD V1.

READY FOR REAL NUMBERS.

AD	IMPRESSIONS	CLICKS	CLICK RATE	PAGE VIEWS	REQUESTS	COST PER REQUEST	QUALIFIED	MEETINGS
B1	—	—	—	—	—	—	—	—
B2	—	—	—	—	—	—	—	—
B3	—	—	—	—	—	—	—	—
B4	—	—	—	—	—	—	—	—
B5	—	—	—	—	—	—	—	—

Pass lines: click rate ≥0.5% (LinkedIn), ≥1% (Meta) · ≥3% of page views request a brief or memo · ≤\$40 per qualified request.

RULES FOR ROUND TWO.

- If Officials request the brief

Then Take the requests into the GES pilot proposal and the meeting with Dr Spio-Garbrah.
- If A persona misses every pass line

Then Drop it from round 2 and move its budget to the leader.
- If Clicks are high but requests are low

Then The ad works and the page does not: rewrite the page, keep the ad.
- If Co-funders or investors book meetings

Then Bring them into the pilot term plan; share the memo and data room.
- If Educators sign up fast

Then Cap at 20 co-designers; agree the first session with GES Cape Coast.

The five v2 ads are written on Wed 21 Oct from round 1 numbers, with the same layout and colours, so only the tested variable changes.

SCOREBOARD V2.

THEN WE DECIDE.

AD	IMPRESSIONS	CLICKS	CLICK RATE	PAGE VIEWS	REQUESTS	COST PER REQUEST	QUALIFIED	MEETINGS
v2-1	—	—	—	—	—	—	—	—
v2-2	—	—	—	—	—	—	—	—

Tue 27 Oct decision: which partners lead the MOU proposal, the co-funding ask and the pre-seed round. **Pass lines:** click rate $\geq 0.5\%$ (LinkedIn), $\geq 1\%$ (Meta) · $\geq 3\%$ of page views request a brief or memo · $\leq \$40$ per qualified request.

THE PLAYBOOK

Why this matters, and how we built it.

HOW IT SERVES THE BUSINESS

PARTNERS FIRST. THEN SCALE.

A public-private partnership only works if each partner sees their reason to say yes. \$300 of ads shows which messages open doors before we walk into the MOU, co-funding and investor conversations.

BUILT IN EIGHT MOVES

- 01** Set the first goal: an MOU, a pilot, then the money.
- 02** Mapped public and private partners, and each meeting's job.
- 03** Turned each partner type into a persona with a test.
- 04** Wrote five ads, one person and one reason each.
- 05** Designed them in the brand, as square images.
- 06** Built five matching landing pages.
- 07** Planned audiences, budget and tracking; set pass lines.
- 08** Booked a creative review with Jeff D. Davis before launch.

WHERE IT GOES NEXT

BUILT ON RESEARCH. READY FOR PARTNERS.

FROM RESEARCH TO PARTNERS.

Market research found the problem and the buyer; the identity gave us the look. These ads put both in front of the people who can open doors.

A PLAYBOOK FOR EVERY DISTRICT.

Each new district or country reuses the same partner personas, pages and pass lines. Only the names change.

EVIDENCE FOR EVERY ASK.

Real interest from officials, educators and co-funders strengthens the GES proposal, the Navab interview and our pre-seed round.

MEANWHILE

What else moved.

THE RIGHT ROOMS.

- Met Ghana's Minister of Communication and Digital Innovation at the Harvard Kennedy School.
- Our Ghana team met the Director of GES Cape Coast; an MOU for pilot testing is being explored. None is signed yet.
- Meeting Jeff D. Davis on Tue 6 Oct; a meeting with Dr Ekwow Spio-Garbrah is being set through an advisory board member.

INVITED, APPLIED, AND RECOGNISED.

- **Navab Social Innovation Fellowship:** invited to interview.
- **TNT accelerator:** \$200,000 pre-seed for 2.5% equity; decision pending.
- **Founder:** Sam Quansah is a Mandela Washington Fellow.

A BRAND PEOPLE CAN SEE AND FEEL.

- Published "An identity that sticks": logo, colour, type and voice, both websites, the social kit and the email signature.
- Released an 86-second launch film with an original score, and a 9-second public teaser for WhatsApp and Instagram ([motion](#)).
